| SUMMARY | | |
| AND MUNICIAN I | | |

This report should not be considered as a complete home and property inspection. The 20/20 Home Inspections report is prepared for the owner to provide general information about this property. The inspector is available by telephone to any interested party to answer questions about the house. Please read the full report

prior to calling the inspector. We are also available to provide any prospective buyer general orientation, helpful maintenance tips and improvement consulting for a fee. This general review inspection is essential to compare your expectations, intended use and special needs with the realities of the house. Interested parties should be advised that without this general review our obligation and liability can only remain with the seller.

GENERAL CONDITIONS/SPECIAL SITUATIONS & LIMITATIONS

| GENERAL CONDITIONS/S | LECIAL SH CATIONS & LIMITATIONS |
|----------------------------------|---|
| The primary purpose of the insp | pection and report is to educate the prospective purchaser/owner about the general condition of the building. |
| Repair and cost effective impro | vement advice is provided to increase this understanding. It is not a contractual obligation nor is it possible for the |
| | ll problems solely on the basis of a visual examination. 80% of first year repairs should be revealed: not 100%. SED IN THE PRELIMINARY INSPECTION REPORT: |
| Functional | (1) system was performing its' intended purpose at the time of the inspection, no significant loss of functionality |
| Monitor and/or Maintenance | (1) item is marginal; will require future repair or replacement. Owner is advised to monitor. |
| | (2) preventative maintenance repairs are required by property owner. |
| Minor Repair | (1) minor repair is recommended; cost should not exceed \$3000.00 and/or repair is not urgent. |
| Major Repair | (1) major repair is recommended; cost will exceed \$3000.00. Obtain contractor's estimates immediately. |
| Good Condition | (1) no defects were discovered that should require repair within the first six months, no significant loss of functionality |
| | Note: Limitations of a visual inspection and visually accessible physical evidence are in effect. |
| Fair Condition | (1) system or component is performing its intended purpose; but due to its age can fail at any time. |
| N/A | (1) not applicable/not accessible/not inspected/not installed or does not pertain to the subject property. |
| (?) | (1) performance/future performance of system or component is unpredictable. Further review is required. |
| | the summary portion of the inspection is to discuss the significant aspects of their findings. There is no time limit |
| on these discussions. Ask as ma | iny questions as you like to ensure we have addressed your concerns. The inspection process is a two-part system: |
| the verbal survey and the report | . This report is not transferable to third parties as it will not clearly convey the information herein. |
| WEATHER CONDITIONS | |
| Snow/ rain/ | limited the extent of the exterior inspection. Roof/ grade/ walkway/ decks were snow covered. |
| | nfall limited scope of basement foundation inspection. |
| | as too low to safely test the air conditioning system(s)/distribution systems and summer comfort. |
| The outdoor temperature wa | as too high to sufficiently test the central heating system/distribution systems and winter comfort. |

YOUR RECOMMENDED COURSE OF IMMEDIATE ACTION:

Please review the preliminary report in its entirety and ask for clarification on any matter. This page must not be relied upon in isolation. Prior to continuing with the next step of the transaction/project consider the issues listed in the report. We advise you to consult with your realtor or lawyer regarding options on how to proceed. Also instruct your lawyer to obtain Title Insurance for you. You should request additional inspections as outlined in the full report to address your special concerns and/or matters that we can not inspect. You must also factor the limitations of the building inspection in your decision making process. 80% of first year repairs should be revealed: NOT 100%. Therefore you must anticipate and budget for the 20% unforeseen deficiencies that will not be discovered by a visual inspection. You must ask the seller for invoices/applicable warranties/plans and/or permits for work completed in the last five years.
